

# RC-7

General Purpose Cleaner Concentrate

## Product Data Sheet

RC-7 is a safe and economical liquid concentrate in which alkalis, synthetic detergents, and wetting agents are combined to produce an unusual formula that is unique in its extremely wide range of cleaning ability. RC-7 may be harmful to paint if used for extended periods.

### RC-7 Physical Properties

Appearance	Blue, Clear Liquid
Odor	Butyl
Specific Gravity @60°F	1.010 g/ml
Density (lbs/gallons)	8.8
Flash Point	>200°F (TCC)
pH	11

### Applications

Normal cleaning: 1 part RC-7 to 10-20 parts water

Heavy cleaning: 1 part RC-7 to 5-10 parts water

Extra Heavy cleaning: 1 part RC-7 to 1-5 parts water

### Advantages

RC-7 is highly concentrated and can be diluted many times, depending on the soil conditions.

RC-7 leaves no residual film when properly rinsed.

Treated surfaces easily rinse clean leaving no residual film when used properly.

### Environmental Data

When used as directed and tested according to the U.S. Environmental Protection Agency's Static Sheen Test, RC-7 does not form or create a sheen on the surface of receiving waters.

### Handling

Improper handling of this chemical or any other chemical deemed as an "industrial chemical" can be injurious to workers. Observe all safety precautions shown and labeled in Safety Data Sheet.
